# I. Draw Prototypes of 3 MAIN use cases:

1. Add Movie
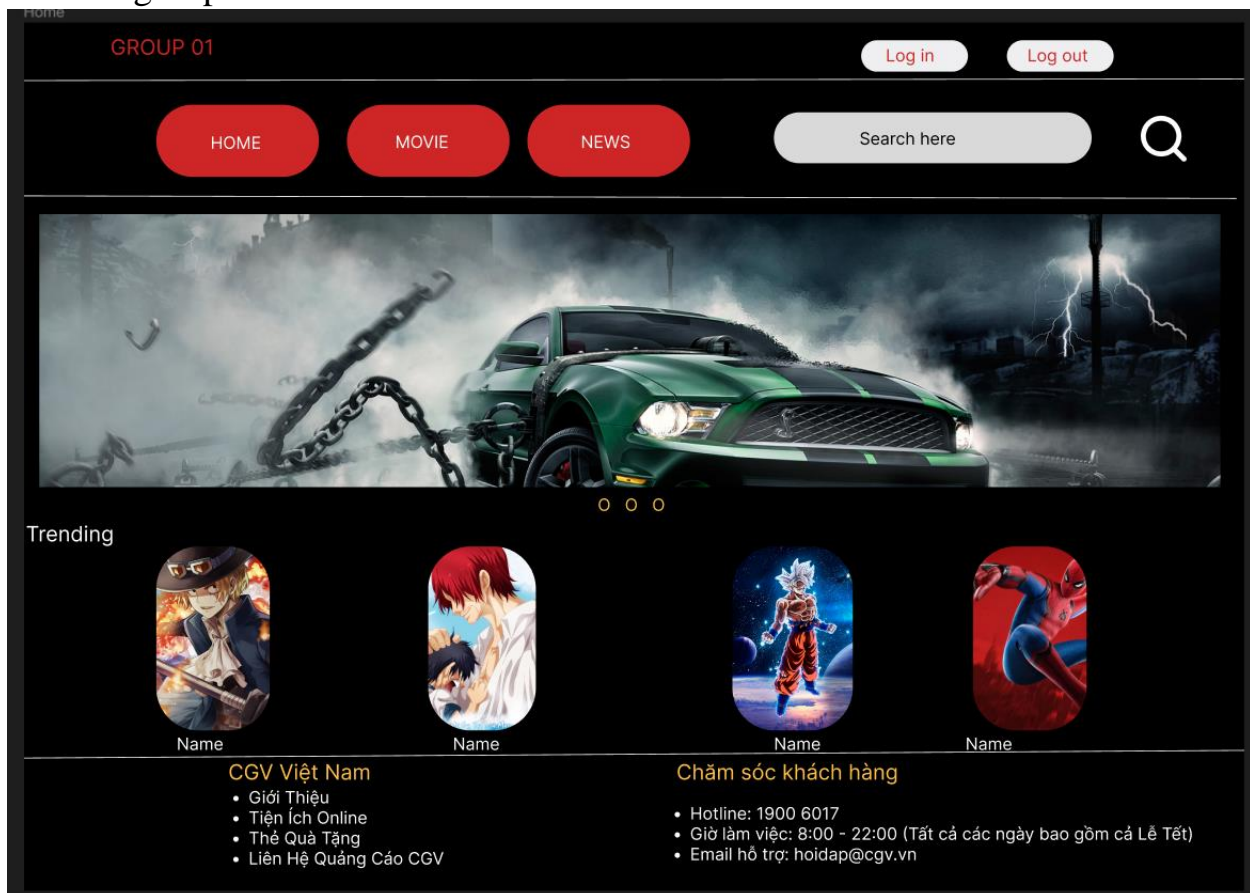

2. Booking Movie Ticket:
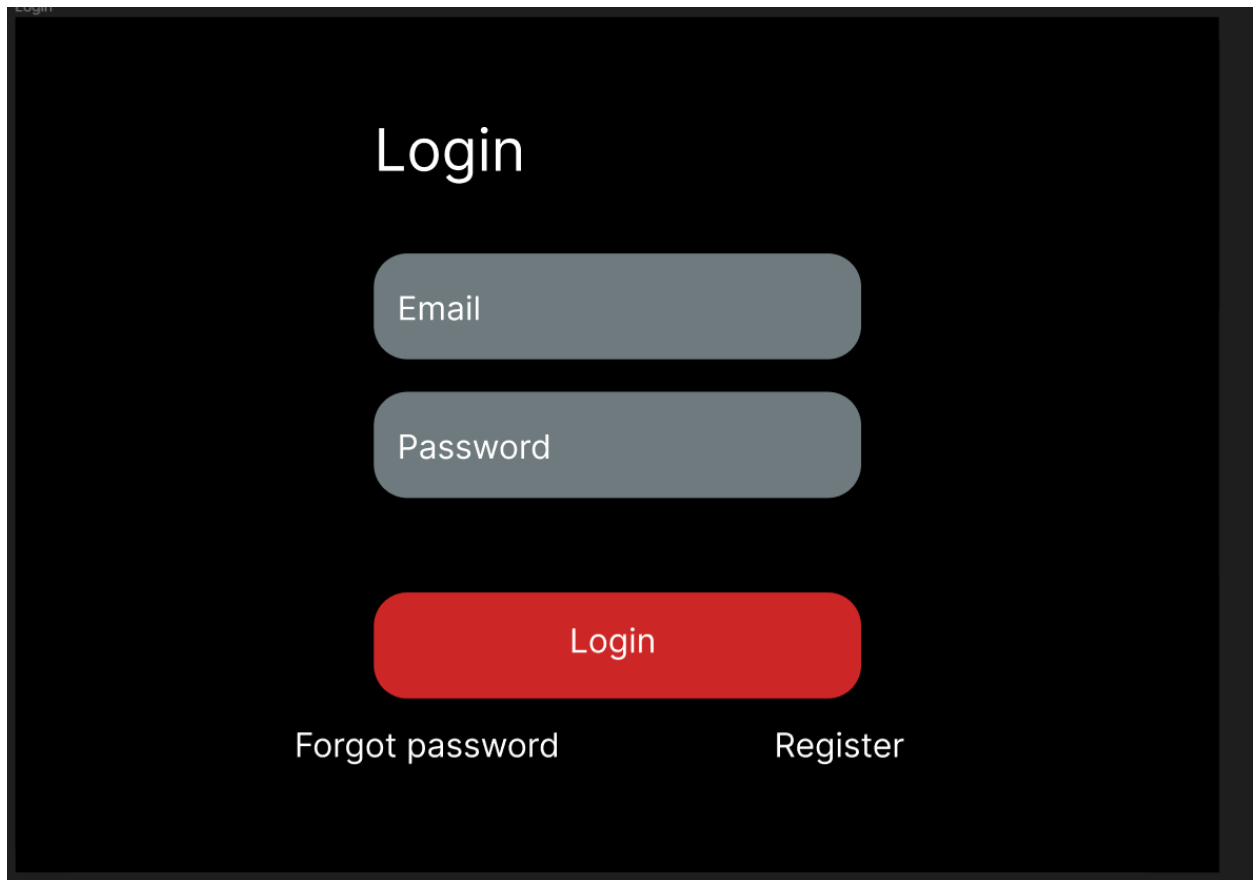

3. Change user information

II. DETAILS:
1. Add Movie:

Adding movies is an essential function, helping employees to add new movies continuously, and meeting the needs of customers. This function can only be performed by cinema staff. The process of adding movies is done through the following steps:

Step 1: When starting, employees need to log in at the login button above the Navbar. Then the system will open a login screen so that the employee can log in his admin account.

Login

Email
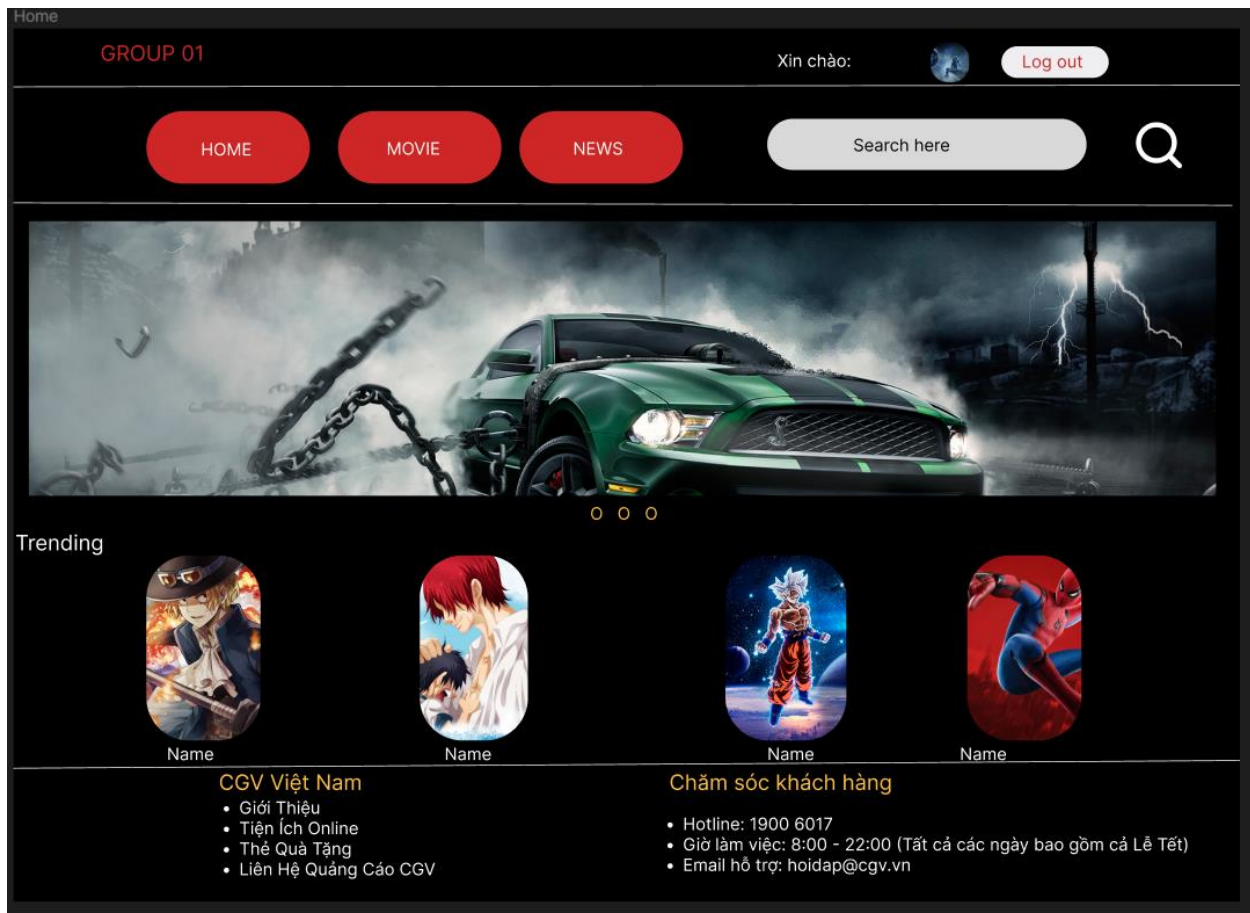

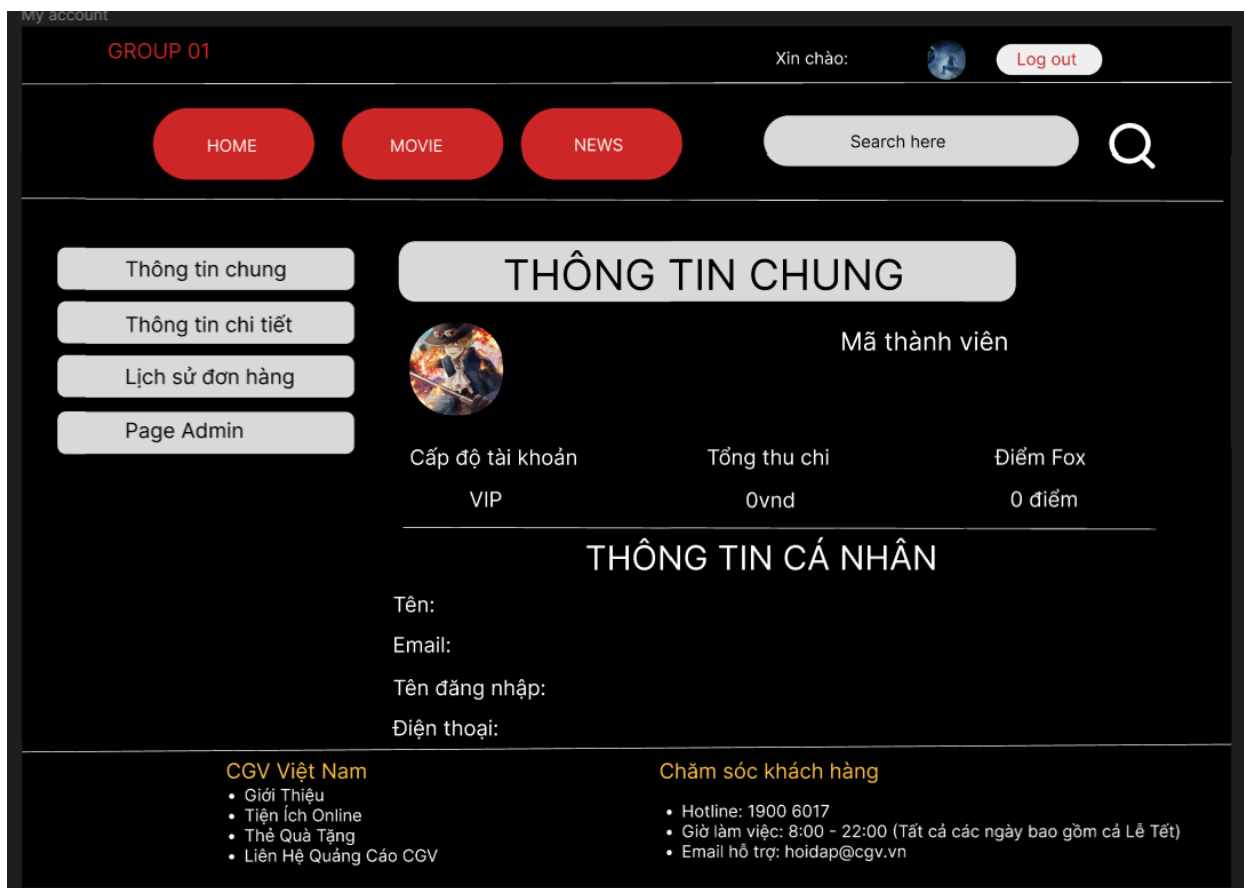

Password

Login

Forgot password   Register

Step 2: At the login screen, the employee must enter the administrator's **username** and **password**. Then press the **log in** button to go to another screen.

Note: Admin account will be provided to staff, admin account cannot be registered

Step 3: After logging in, you will return to the main screen as on Navbar, there is no longer a login button, but instead an account as shown in the picture. After the employee presses the account button, it will switch to another screen.

CGV Việt Nam
- Giới Thiệu
- Tiện Ích Online
- Thẻ Quà Tặng
- Liên Hệ Quảng Cáo CGV

Chăm sóc khách hàng
- Hotline: 1900 6017
- Giờ làm việc: 8:00 - 22:00 (Tất cả các ngày bao gồm cả Lễ Tết)
- Email hỗ trợ: hoidap@cgv.vn

Step 4: At this screen, the staff clicks the **PageAdmin** button to add the movie

Step 5: After clicking **PageAdmin**, this screen will appear, where the staff can add information about a movie such as:

- **movie name**
- **genre**
- **director**
- **general description**
- **movie schedule**
- **image**
- **token trailer movies**
- **movie ratting**
- **movie theater addresses**

After filling in the information, press the submit button to save the system.

Step 6: Notify successful.

2. Booking Movie Ticket:

Booking movie tickets is one of the very important functions of the system. Users after logging in will be able to select the movie they want to watch, view the details of that movie, choose a seat and pay to buy a ticket.

Step 1: After the user is logged in, to be able to buy tickets, the user clicks on the Movie button, which will go to another screen.
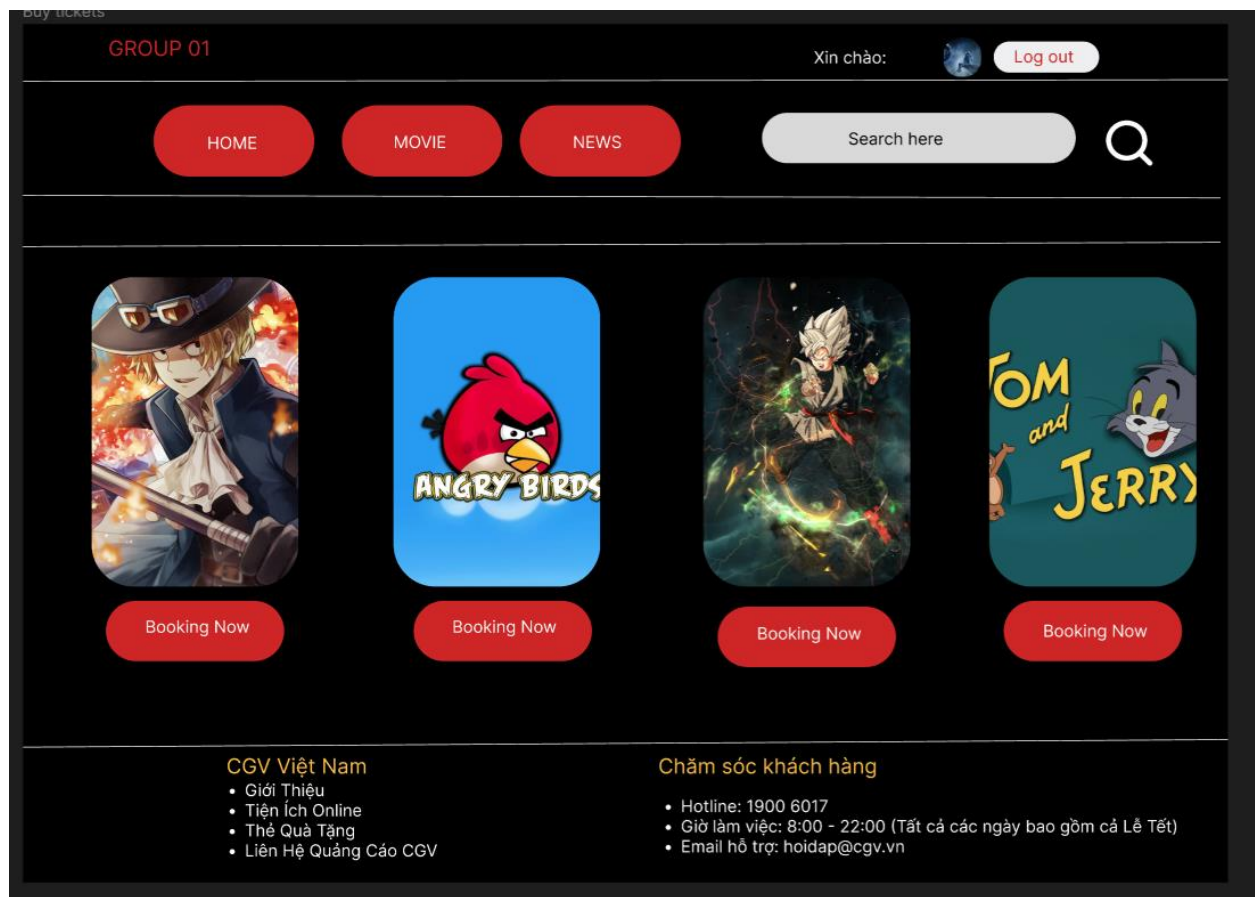

Step 2: At this screen, a list of movies appears, users can choose a movie they want to watch. Then click on the images of the movie list to see more information about that movie.
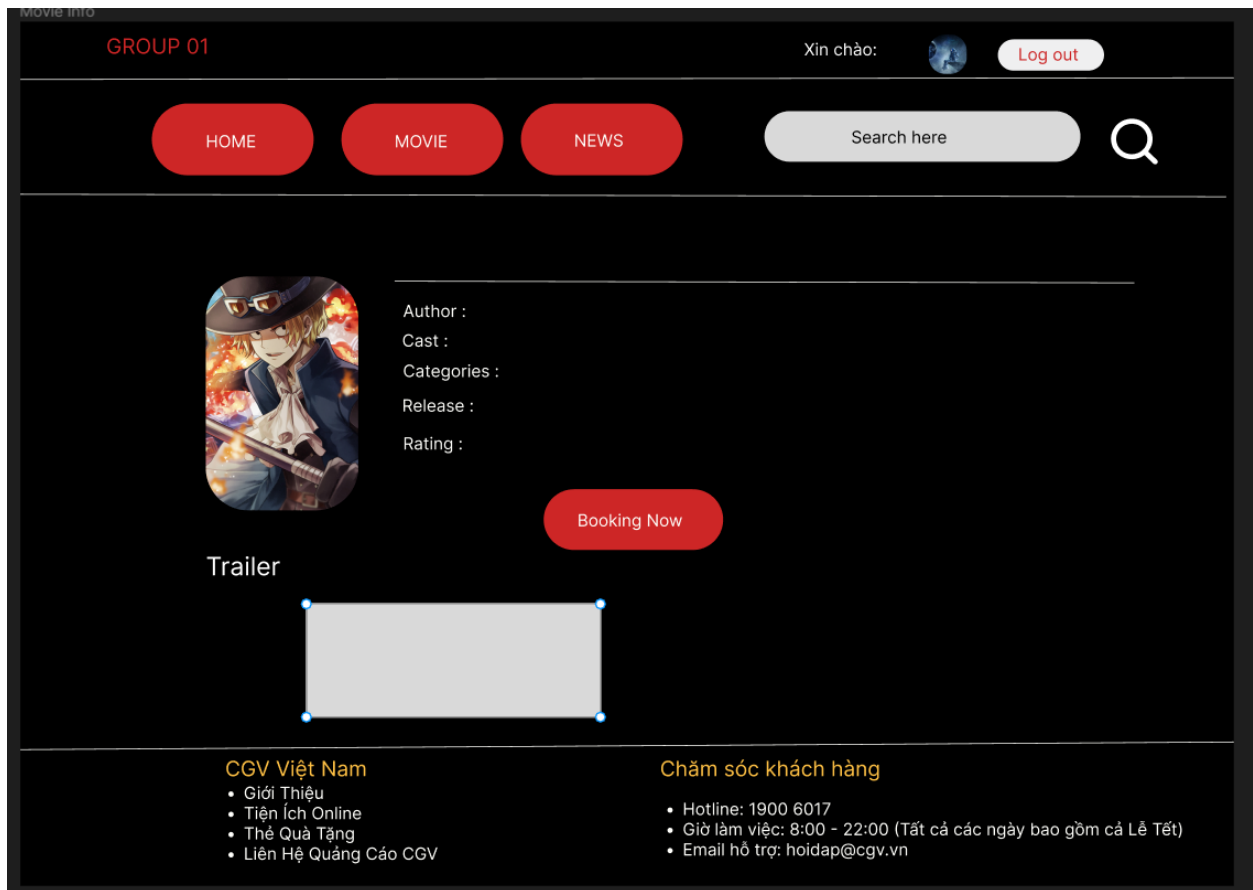

Step 3: After clicking on the movie you want to watch, it will go to this screen. Here users can see information about Author, Cast, Categories, Release, Rating, Trailer. To book tickets, users will click the Booking Now button.

Step 4: After clicking the Booking Now button, it will move to select a seat, where each seat has a different price, gray: showing available seats, blue: showing the seat you want to book, color red: seats are reserved. Then select Payment to proceed with ticket payment.
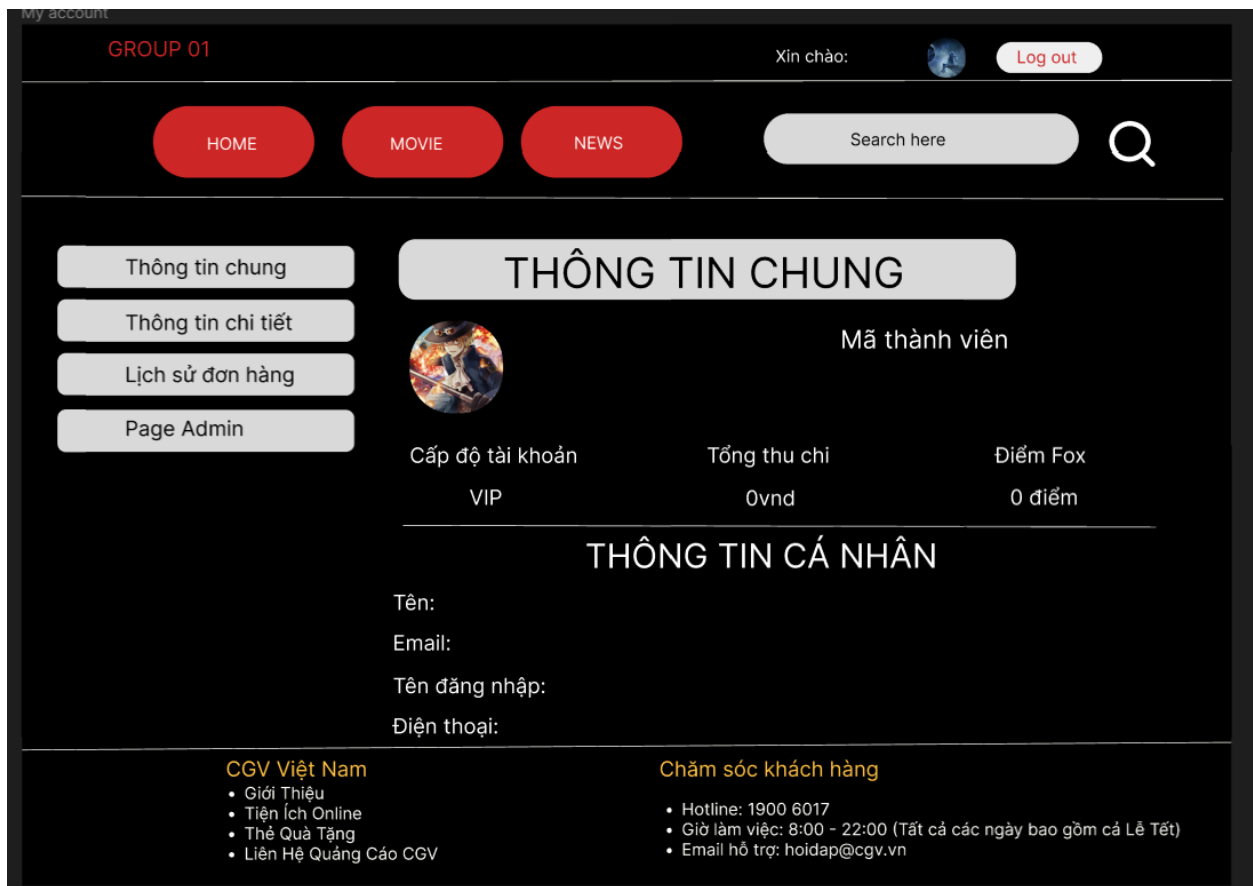

Step 5: Booking successfully.

3. Change user information

Change user information: is a function that allows users to change their personal information, or change their password.

Step 1: After the user has logged in, the user wants to change the previously registered information. Users need to click on the account icon on the Navbar

Step 2: At this screen, users need to click the **Thông tin chi tiết** button to change personal information.

Step 3: After clicking on the details, this screen will appear. Here users can update

- Full Name,
- Phone Number,
- Gender,
- Date of Birth,
- Email,
- City/Province,
- Address.

If the person wants to change the password, then click on the empty box "Tôi muốn thay đổi mật khẩu". After clicking, users need to re-enter old password, new password, confirm new password. Then click the Submit button.

If the user does not want to change the password, there is no need to check the "Tôi muốn thay đổi mật khẩu"

Step 4: Successful
